

Extending G3 Group Evaluation Forecast Window

Overview

This document provides a simplified and easy-to-follow guide to extend the Group Evaluation Forecast (GFE) window in G3 RMS.

Key Objective

Enable customers to evaluate and price group bookings for a longer future period without impacting other system functions unnecessarily.

Step-by-Step Configuration

1. Confirm Requirement

- Identify and confirm the required extension period.
- Ensure alignment with the contracted length for group forecasting.

2. ISM Task

- Document the request in case.
- Update forecast window details.

3. G3 Configuration

- Go to G3 → Support → Configuration
- Update below parameters
 - `pacman.feature.GroupPricingExtendedWindowDays` = Requested extension period
 - `pacman.analytics.ipconfig.GP_USE_EXTENDEDWND` = true
 - `pacman.analytics.ipconfig.Use_Price_Accelerator` = true
 - `pacman.analytics.ipconfig.Def_Price_Accelerator` = 0 (default set to 0)
 - `pacman.preProduction.showPriceAcceleratorPermissionOnUI` = true
 - ROA Tools/Overrides/Property Attributes: `GP_FS_FCST_WINDOW_SIZE` = Requested extension period
